Bob Mcloughlin suggested putting meeting information in Sammamish Review under the community calendar, clubs, or volunteer section last meeting and we dropped the ball on that one. Will follow up in the next few days.

Recruiting letters will be sent out in the next couple of weeks. Because of Saturday's SET exercise, it threw our timing off.

Rick Olsen announced that Wednesday, Nov. 15 from 8:00 a.m. to noon there will be a Civil Exercise. The scenario will be an earthquake under Preston. It would be worthwhile to have as many participants as possible to demonstrate to the city what our capabilities are. Check with your employer to see if they support volunteer time off.

Clay Jackson has selected November 17, 18, and 19 for the Amateur Radio Technician Class. Classes will be held Friday from 6:00 – 9:00, Saturday 9:00 – 4:00 and Sunday 9:00 – 3:00

Thank you to Bill Rice, Seattle Fire Battalion Chief, for presenting an overview of the ICS 100 and 200. It was very informative. Ondrea Hidley suggested we form a group and study together. More info on that later. If you want to go online and take the course, the web address is:

www.training.fema.gov/emiweb/IS/is100.asp

When taking the final exam, under involvement, select "local government".

For right now the participation requirements are most likely going to be ICS 100 and NIMS 700.

Thanks to all who came. It was a great turnout! See you next month on Nov. 8 at 7:30, hopefully at the new city hall!
